

MC Squared Virtual Retreat Testimonials

Rick D.

Being a virtual Zoom program, I wasn't sure how this would unfold from a remote distance. I had actually taken this MC2 course as a residential participant about 20 years ago from Joe G. & Patty Avalon and although the group dynamics could not be exactly replicated, the essentials of the course were very well duplicated. Also, there were nice benefits of being at home (i.e. not having to travel across country) and conveniences of not having to travel that balanced + cheaper cost.
